

METHODIST CONFERENCE CONCLUDES DELIBERATIONS

Thanks Government For Enforcement of License Law and
Lieutenant-Governor for Good Example. Want
Stricter Sunday Observance

The conference concluded its labors last night in one of its most interesting sessions. It was decided to leave the next place of meeting, the date and preparation of program to the special committee of the conference. The school of theology has been so successful this year that another will be held in connection with the conference meeting next year. The stationing committee handed out its final report and the new ministers will be responsible for their fields the second Sunday in July.

The whole evening was given to the reception of the report of the committee on temperance and moral reform, which was presented by Mr. Webb. The report cited the need of united and aggressive action in view of the present time when so many hotels are being built in our midst; of making a strong stand for the prohibition of the liquor bar, and of a rigid enforcement of the present existing license laws.

They were not in favor of appointing a temperance lecturer and secretary for the province, but thought such an end would be equally gained if every minister would deliver a temperance sermon once in every quarter, hold frequent public meetings among the local clergy, and utilize the prayer meeting as a temperance organization. In the discussion that followed Principal Riddell referred to the statement of the Premier of Alberta, who said no saloon licenses would be granted against the wishes of those affected thereby. The principal was for banishing the bar, but if that could not be done we should attempt to curtail the hours of sale and asked that some demonstration should be made to show the position of the people on this question. Rev. C. H. Husula thought church members and moral reform workers should take a greater interest in municipal politics; get on the "inside" and get control of the organization. One of the delegates said he knew of a town where the policeman was afraid to prosecute offenders against the liquor law for fear of being "fired" by the town council. Hence it was necessary to elect men who would stand by the enforcement of the law. Rev. J. M. Harrison, of Medicine Hat, asked that a clause be inserted in the report that none but men of known temperate habits be appointed as license inspectors, and that they have no other occupation. Principal Riddell thought the delegates should express their appreciation of the Provincial Government's action in appointing a Provincial License Inspector and for enforcing the law regarding the quantities whose sale dealers were permitted to sell. It was decided to bring several amendments of the local option law before the attention of the government at its next session.

The report eulogized the action of

His Honor the Lieutenant Governor and Mrs. Bulyea for not having introduced intoxicants in the functions at Government House.

The temperance committee for next year are President Kirby, Revs. Harrison, Buchanan, Riddell, Goodworth, Argue, Messrs. Cushing, Hunt, Fowler, Benson, Hotchkiss, Speakman.

A pleasing incident in the proceedings was the presentation to President Kirby by Messrs. Baismann and Haggith on behalf of this year's ordination class of a framed photograph of the first ordination class on the banks of the Saskatchewan. At this stage the President called Mr. Johnson, a member of this year's ordination class to the front and handed him a sum of money on behalf of the delegates for his kindness in bringing the mail while Conference was in session.

The afternoon session yesterday was a busy one for the delegates to the Methodist Conference. There was the usual raft of resolutions, reception of reports, and other routine business left to be attended to by the remaining delegates who through official duties were obliged to see the whole program dispatched. Among the most important reports was the one on Sabbath day observance. The committee were in favor of petitioning the authorities for a more strict enforcement of the laws relating to Sabbath observance. They protested against Jews and Seventh Day Adventists receiving Sabbath privileges, declaring it was in the best interests of every class that there be but one day legally regarded as the Sabbath. The vigorous action of the Lord's Day Alliance was heartily commended.

Rev. John McDougall, D.D., and Mr. W. G. Hunt were elected as representatives of the conference to the general board of missions.

The conference will recommend to the general conference the following men to constitute the board of directors of Alberta College for the ensuing quadrennium: Rev. T. C. Buchanan, Calgary; Rev. Leo Gaetz, D. D., Red Deer; Nelson D. Miles, Strathcona; J. P. Fowler, Wetaskiwin; R. L. Gaetz, Red Deer; H. C. Taylor, Edmonton; John McDougall, Edmonton; A. H. Goodwin, Vegreville; John McDougall, D.D., Calgary; E. K. Strathby, Lacombe; T. M. Turnbull, Edmonton; A. P. Grady, Macleod; W. G. Hunt, Calgary; John Dixon, Maple Creek; John Sommerville, Edmonton; A. C. Ruthenford, Strathcona; A. F. Cushing, Edmonton; W. T. Galbraith, Lethbridge; W. T. Henry, Edmonton; A. G. Harrison, M.A., Edmonton; Thos. Bellamy, Edmonton; A. B. Cushing, Calgary; R. Aldridge, Vermilion; Wm. Craig, Olds; G. D. Stanley, M.D., High River; T. W. Craney, M.D., Strathcona; C.

COMMISSION MEETS TODAY

Eight Applications Before Them For
Consideration, Including Cafes
Protested Against

There is a meeting of the license commission in the council chamber of the city being held this afternoon, commencing at 3 p.m. Eight applications are up for consideration. Two of these are applications for cafe licenses, by Messrs. Cron and Shaw, against the granting of which the city council has lodged a protest. The only other new application in the city is by Paul Rudyk, for a license for the new international hotel, now nearing completion on Kinslton. There is an application for a wholesaler license in Vegreville and an application for a tavern license at the St. Paul cross roads. All the others are for renewals.

SCATTER GUNS FOR MESSENGERS

Express Men Armed With Nasty
Guns For Hold-up Men

Winnipeg, June 19.—Riot guns of a very wicked type have been supplied to express messengers operating west of Winnipeg. The weapons are designed especially to discourage hold-ups in the British Columbia mountains and are the latest device for the protection of treasure trains on the C.P.R. They are a sequel to the recent British Columbia hold-up.

The general superintendent of the Dominion Express Company yesterday in reply to a question said: "Yes, we have placed a consignment of riot guns in the hands of our messengers at Winnipeg. They will be carried on all cars from Fort William west. We have been figuring on something of this kind since the Mission Junction robbery two years ago, and the Kamloops job determined us to take action. No special instructions have been issued to the men. They are merely expected to defend the property in their possession. That means a shot, of course, but the actual use of these guns will depend upon the messengers themselves."

CROSSING TENDER KILLED.

Glacier Bay, N. S., June 18.—John Culbert, of Dominion No. 2, met with a fatal accident on Saturday. He tended the Sudney and Glacier Bay crossing where the electric and banking roads cross at right angles and had placed the frogs for the electric to pass when he noticed three runaway cars coming down the grade. To avoid a smash he removed the frogs but was run over before he could get away. Both legs were badly mangled. He died yesterday.

KILLED BY TROLLEY

Fairfield, Conn., June 18.—By the overturning of a trolley car near Ash Creek bridge late yesterday afternoon Charles Weidlich, a well known Bridgeport manufacturer, was instantly killed and four passengers seriously wounded.

WILL NOT WIDEN FIRST STREET

City Council Finally Disposes of Proposition at Last Night's Meeting. Petitions Not Sufficiently Signed

The first street widening scheme was finally disposed of by the city council last night by the adoption of a report of the streets and parks committee, into whose hands it was placed at the last regular meeting. The report finds that neither the south end nor the north was sufficiently signed and add a codicil turning the proposition down on its merits. The report reads:

REPORT OF STREETS AND PARKS COMMITTEE
Re petition of John A. Burkholder and others and petition of A. York and others.

The committee is advised that in order to authorize the granting of either of these petitions it is necessary that the parties signing should be the parties who are either registered or assessed as owners and they find that neither petition has been sufficiently signed to comply with the law, namely by at least two-thirds in number and one-half in value. Under these circumstances your committee begs to report that neither petition can legally be granted.

Your committee thinks it proper to add that in view of the facts that the first petition does not ask for the widening of the street to Jasper Avenue and that a number of property owners whose lands would be very seriously affected strongly object to the granting of the petition and that there appears to be no generally acknowledged pressing necessity for the widening of the street they would not be disposed to recommend that the petition named be granted even if it were much more largely signed, and the committee assumes that the petitioners in the second petition do not wish it granted in case the first petition is not granted.

Freddie Heintz with Poilard's Lilliputians

ELECTRIC RATES CAUSE DEBATE

Ald. Calhoun Says: Light Can Be Sold at Profit From 8 to 11 cents per Kilowatt Hour

The electric light question came in for considerable debate at the city council meeting last night in connection with a report of the commissioners ament the rates.

This point has been before the council for three weeks now and has been twice referred back already. Ald. Bellamy has taken the stand that there was too great a discrepancy between the highest and the lowest rate named in the new rate suggested in their first report by the commissioners, both for power and light, and at his instigation the report was referred back with a request or intimation that they report on why this discrepancy should exist. At last night's meeting the commissioners brought in a report which, as the mayor put it, was a compromise.

The original report placed the rate at 13 cents for the smallest consumer and 8 cents for the largest.

The compromise report placed the highest and lowest at 12 cents and 9 cents per kilowatt hour.

Ald. Calhoun, who took quite an active part in previous debates said: "This does not suit me yet. I was talking to Mr. McNaughton and he tells me that those rates can be reduced to 11 and 8 cents and the plant still pay a dividend. I think that the public should get the cheapest light possible. I don't see the sense of getting cheaper light after we are dead."

Ald. Picard said that as he was the mover of the 13 to 8 report, and that as there would be a howl if the light rates were cut below the paying price and it was later found necessary to raise the rates, he would move to adopt Commissioner Kinnaird's report.

Alderman Latta was of the same opinion.

Ald. Bellamy said his objection had been that there was too much discrepancy. However, as the report called for 12 to 9 he would be in favor of adopting the report, as he would rather be on the safe side.

Ald. Calhoun said he would rather take the electrician's report than the secretary-treasurer's report. He said that he did not understand the electrician's report, as it was in technical terms, but that he had talked with that official and he had told him that his report did not corroborate the commissioner's report, but on the contrary that the light could be supplied for the price named, 11 to 8 cents per kilowatt hour, and still leave a profit. Ald. Bellamy was present at the time. His moved that the report be laid on the table until Mr. McNaughton could be present.

Secretary-Treasurer Kinnaird said that if there was any such thing in the electrician's report he would like Ald. Calhoun to point it out.

Ald. Calhoun repeated that he was not versed in electrical technology.

Ald. Picard asked that the electrician's report be read.

Secretary Kinnaird read the report. It was a long technical treatise on the difference in cost of production for small and large users, the summary stating that the difference between the cost of the smallest quantity sold and the largest was 38 per cent and that the differentials should be kept within that radius.

Ald. Mays asked Ald. Bellamy if he understood Electrician McNaughton to say that the plant would pay at 8 to 11 cents.

Ald. Bellamy replied in the affirmative and Ald. Mays seconded Ald. Calhoun's motion that the report be laid over until the electrician could be heard. The motion carried and Mr. McNaughton will be asked to come before the city council and explain to them some of the details of the electric light business.

ALD. BELLAMY ROASTS PAPERS

Says They Are A Curse To The City And Have Misrepresented Council And Commissioners

At the city council meeting last night there was a few moments of a very strenuous time during which Alderman Bellamy uttered his opinion that the newspapers of the city are a curse to Edmonton and that they have misrepresented the council and commissioners all through. Furthermore he stated that the commissioners are the best of the job and that if they were not the city could not want them.

Ald. Manson coincided with what Ald. Bellamy, taking particular exception to an editorial in the Journal published after the recent aldermanic election, contending that if in the opinion of that paper the calibre of the candidates was not up to the required standard that it was the duty of the paper to bring out other candidates and not wait until after the election to register its protest.

The utterances arose out of a discussion of the engineer-commissioner friction, on which there was a very free debate, Ald. Calhoun stating that the time had arrived when the council would have to choose between the city engineer and the city commissioners. In this connection the report of the commissioners No. 115, in which the commissioners stated their case against the city engineer, was adopted by the deciding vote of the mayor. Ald. Bellamy, Picard and Manson sided with the commissioners and Ald. Mays, Calhoun and Latta voted against the adoption of the report.

MUST STOP THE RIOTS

Berlin, June 18.—The German government has made representations to Russia that there is urgent need for quelling the outbreak in Bialystok on the grounds that numerous German subjects at Bialystok and elsewhere are endangered.

ADDITIONS MUST BE SANCTIONED

City Council Adopts Resolution Giving City Engineer Supervisory Powers Over City Additions

The laying out of sub-divisions within the city limits received a jolt last night at the city council when Ald. Manson moved and Ald. Calhoun seconded that the city solicitor be instructed to prepare a by-law requiring that all unregistered sub-divisions be submitted to the city engineer and that if the streets and lanes of the same did not conform with the city's street plans that the registration be not allowed to pass.

The motion was adopted and hereafter parties laying out lots inside the city limits will have to consult the city engineer before they can offer their sub-divisions for sale.

In the same connection and just a little earlier in the evening a report of the streets and parks committee was adopted unanimously informing Wallbridge & McDonald that instead of being in a position to sell lot 17 of plan 49 to the city they were really in the position of being liable for an action for damages for plotting a street where none existed. The report read:

REPORT OF STREETS AND PARKS COMMITTEE

Re Offer of Wallbridge & McDonald to sell lot 17, Plan XLIX to the City.

Your committee is of the opinion that this offer should be refused and that Messrs. Wallbridge & McDonald be written to to the effect that the owners of lots on plan XLIX appear to have a right of action against the original owner who registered the plan showing Stewart street as an open street and that probably he can best settle his liability by purchasing lot 17 so as to open the street.

You Will Stick to Our LUMBER

Once you have tried it. Because you can't get so much, so good, for so little money anywhere else. That says a lot and means more. Try us and give us an opportunity to please you. We have

Current Events of Hustling Town in

Itemized Form for Busy

Readers

Red Deer, Alberta, June 18 (Special
to the Bulletin).—Some little excite-
ment was caused there in the vicin-
ity of the C.P.R. depot on Friday night
when engine No. 468 hit a short rail
and buried the back wheels of the ten-
der in mud to the axles. Thinking
the road clear the engine started on
full speed from the coal chute to the
water tank not noticing the switch
thrown against him. When within 40
or 70 feet from the switch he revers-
ed but was unable to stop before the
tender left the rails. Had the engine
gone four feet further it would have
crashed into an empty passenger
coach on the next line. With the as-
sistance of another engine 468 was
hauled on again. About two lengths
of rail were torn.

C.P.R. gangs are still working over-
time on the Red Deer yards and the
fact that new track is needed is cer-
tainly proved by the number of cars
lying in the yards all the time. We
understand work will soon be com-
menced on the roundhouse and stock
yards.

Prof. Donohue, the strong man who
exhibited in the Arlington hotel last
week, neglected to pay his license, and
the Inland Province wanted why the
Red Deer constabulary preferred the
Inland cop to collect it for them.

Several teams are at work grading
the east end of Ross street. Much im-
provement has been made by filling in
the lakes on both sides of the street
with gravel. Now, if we get some
good rain we can take off our hats
to the council.

The ten-cent tea given by the ladies
Guild of St. Luke's church Thursday
night was very well patronized, the
proceeds being somewhere around \$40.

F. S. Simpson, W. W. Howe, J. A.
Younman and F. L. Farley have been
appointed census takers for the dis-
trict of Red Deer.

A large number of business lots on
Galtz avenue and Ross street were put
up for market for the first time last
week.

G. H. Bawenheimer has moved into
the residence on Galtz avenue recently
purchased from G. A. Love.

H. Lawrence, formerly of Michener
& Carstairs, has accepted a position
in Brumpton & Galtz's employ-
ment.

L. C. Palmer is taking an office in
the post office block.

Mr. A. Scott is taking a few weeks'
holidays at Sylvan Lake.

Announcements are out for the mar-
riage of C. R. Pooley, of the Bank of
Commerce, to Miss Jessie Tall.

Contractor Bowers, carpenter, shop
and office have been moved several
blocks south on the old stand on Galtz
avenue.

The new barber shop in the basement
of the Alexandra Hotel opens next
week.

Mrs. L. C. Palmer, accompanied by
her daughter, Miss Florence, visited
Lacombe on Saturday.

Miss Allie Allen has accepted a po-
sition as stenographer in the office of
Michener & Carstairs.

W. B. McLeod is down with an at-
tack of pneumonia.

W. W. Howe, the Evans auctioneer,
was in town last week.

Claude White has returned from In-
niskin, where he spent the last couple
of months.

S. P. Freeman of Inniskin was in town
on Friday.

Outcrops are doing a lot of damage to
townspeople's kitchen gardens.

About 20,000 logs have entered the
Great West Lumber Co.'s canal to date.
F. S. Simpson took a trip to Lacombe
last week.

The Red Deer steam laundry opens
for business almost immediately.

A. W. G. Allan is taking an office
above H. Galtz's drug store.

C. R. Hemmings, of Lacombe, was in
town last week.

Moving pictures of the San Francisco
fire hit town last week, and were
accorded a warm welcome.

Rev. A. S. Simpson preached at
Blackfalds yesterday.

Mrs. A. Smith and family left Tues-
day last on a trip to the maritime pro-
vinces.

Best Bros' new furniture store is
fast nearing completion.

**ROUTINE WORK
OF CITY COUNCIL**

Last Years Cement Will be Subject of

Report. McMeen Will Leave

Soon for Edmonton

At the council meeting last night there were present Mayor May and Aldermen Bellamy, Mays, Calhoun, Latta, Picard and Manson.

After the minutes were read and adopted under the head of communications a letter was read from Arthur Brown, protesting that the fire bell was not rung on the occasion of recent fires, citing the case of Robertson's Hall, in which Ald. Bellamy said he was wrong. Ald. Mays said he did not know anything about it, but moved that Mr. Brown's letter be filed and that the fire bell be rung in future.

R. P. McMeen wrote stating that he would leave Chicago for Edmonton in the near future to take up the telephone business.

E. D. Grierson, market clerk, wrote asking for an increase of salary.

Ald. Picard moved that as the council had only recently taken up the whole salary question, that Mr. Grierson be informed that as it was not the policy of the council to increase salaries in the middle of the year his salary could not be raised until the beginning of the year.

Ald. Latta seconded.

Ald. Mays moved in amendment that the commissioners be asked to prepare a report.

Ald. Calhoun seconded and the council broke even. Ald. Manson voting with the amendment. The mayor carried the motion.

W. J. Carter, who laid the granite sidewalk last summer, wrote stating that owing to poor cement some of the sidewalk laid by him had proved defective, and that as the fault was not altogether his he thought it would be an unwarranted hardship to charge him with all the repairs. However, if the city would supply the cement he offered to supply the labor to make whatever repairs the commissioners considered it was his duty to make.

Mr. Hargreaves said that the cement had not been as good as might be, but was the best they could get.

Ald. Mays said that if the cement wasn't good it was up to the engineer to see that it did not go in. He moved that the commissioners report on the defects and their causes. Ald. Calhoun seconded and the motion carried.

The chairman of the isolation hospital committee, Ald. Smith, not being present, Ald. Manson answered for him, stating that the committee had called for competitive plans and as these had only come in and the committee had not yet had time to go into them, he asked that the report be referred back. His request was granted and the hospital plans which meet the approval of the committee will be submitted to the council at the next meeting.

The only local improvement petition to come up was for a six foot plank sidewalk on the north side of Helmick street between Namayo and Kintestino. The petition was granted.

**STRATHCONA
NEWS ITEMS**

The Bulletin's Daily Budget From the

Sister Town

Strathcona, June 19.—At the C. E. meeting last evening in the Presbyterian church a nice paper on "Glorified Life" was given by Miss Jessie Rogers, while Miss Blaine, Miss Brandt, Miss Thoren, Mr. Gibson and the pastor took part in the discussion that followed.

A very successful "musical" consisting of vocal and instrumental music, was given in the Methodist church here last evening by the Epworth League. The pastor, Rev. T. Johnston, B.A., B.D., was in the chair. The Sunday School choir gave a short song service as an introduction. Mrs. (Dr) Greene rendered instrumental selections. A chorus, "We'll be right in the end of wrong," by junior members of the League followed. The following solos were rendered: "Anchored," Mr. McCalland; "Land of Nod," Miss Armstrong; "The Holy City," Mrs. T. J. Johnston; "Let Jesus Come Into your Heart," Miss Daisy Walbridge; guitar solo, Mr. G. G. Baxter; a duet by Messrs. W. Tuttle and F. Richards. Encores were the order of the evening and the programme was much appreciated by the large audience in attendance.

Messrs. Davidson & Wolfe, contractors and builders, are kept busy trying to keep up with the orders which are continually pouring in. They have already secured more floor space and a larger staff of men, but are rushed as hard as ever. They experience difficulty in getting supplied with the right class of finishing material promptly and hence are at a disadvantage in turning out their work.

Mr. William Fraser was in town today from Mundare, Alta. He reports that they have a two story mill up and basement already erected for Mr. Werner. He says they did not commence work until June 5th, but now have the building built and ready to install the machinery when it arrives. He says they will soon go to Chipman on the C.N.R. to erect a 30,000 bus. elevator there.

Mr. David Fraser, provincial boiler inspector, has gone to Leduc on his regular tour of inspection and will be absent for several days.

Mr. J. E. Eaton, contractor and builder, is in town to-day. He is at present constructing a new school about three and a half miles from town, and has also received the contract for the erection of a new Lutheran German church at Spruce Grove, where he expects to commence work at an early date.

Mr. Jules Griffler came to town on the late train last Friday, accompanied by his wife and family. Mr. Griffler was here for several months last year and worked for a considerable time on the B. & C. cement elevator. He left town before Christmas, 1905, and went back to his farm in Washington, U.S. He has arranged his business affairs in the United States and is now back again to secure some Alberta land and become a Canadian.

Mrs. R. Parks of Tillsonburg and Mrs. J. Milligan, of Woodstock, Ont., are in town visiting Mr. and Mrs. Groat, their old eastern friends.

**EARTHQUAKE
CAUSED BY CRUST**

San Francisco Trembler Was Result of Rocks Settling at Break in Earth's Surface

Sacramento, California, June 20.—The preliminary report of the state earthquake investigating committee has been received at the office of Governor Pardee. Under the heading of "The Result" the report says:

"One of the remarkable features of the coast range of California is a line of peculiar geographic construction which extends obliquely across the entire width of the mountainous belt from Mendocino county to Riverside county.

"The surface along this line has been formed by a dislocation of the earth's crust, or a series of dislocations in times past, with the differential movement on the part of either side of the plane of rupture. The movements that produced the line are attributed to separate earthquakes extending back into the usuary period. In general terms the causes of these movements are attributed to the theory that stresses are generated in the earth's crust and accumulate until they exceed the strength of the rock composing the crust and find relief in sudden ruptures. The earthquakes of April 18 is said to have been due to one of these movements and the rift is described as extending from the vicinity of Point Arena to the neighborhood of San Juan, Benito county, a distance of 145 miles. The evidence of the rupture and of the differential movement is clearly defined in a continuous furrow in the surface soil several feet wide. The average horizontal displacement is two feet wide. In Sonoma and Mendocino counties there is a different vertical movement not exceeding four feet.

"In consequence of this movement," the report goes on to say, "it is probable that the latitude and longitude of all points in the range have permanently changed a few feet. A complete study of the phenomena will undoubtedly contribute greatly not only to our knowledge of the evolution of the world's crust, but also to our knowledge of the evolution of the world's crust, but also to knowledge of buildings and water pipes edges of the means of minimizing the when such shocks occur in the future.

Modern classes of structures appear to have been relatively passive, while the made ground in their vicinity was profoundly disturbed. The weak points in frame buildings were the faulty underpinning, lack of bracing and the chimneys. Pipe lines on low swampy ground or made ground are in greater danger of destruction than those on high ground underlain.

"In San Francisco the most violent destruction of the buildings was on made ground, which behaved as jelly in a bowl. The minor shocks continued for many days after April 18, and in this respect the earthquake accords in behavior with other earthquakes in the past. The minor shocks which succeeded the main one are interpreted generally as due to subordinate adjustments of the earth's crust in the tendency to reach equilibrium after these chief movements.

CALGARY SEEKS LIGHT.

The Calgary Albertan says: A proposition is about to be made to the city council to have lights in store windows put in at something less than cost. It is argued that this should be done in order to induce merchants to keep their windows lighted during the nights and in that way the city would be made lighter and brighter and much more attractive.

GREAT CHESS PLAYER DEAD

Philadelphia, June 18.—Harry Nelson, of Pittsburgh, the chess master, died yesterday of apoplexy, after an illness of many months.

KANSAS NEEDS HARVESTERS

Topeka, Kansas, June 18.—Kansas is sending the strongest appeals of her history for men to work in the harvest fields. At least 25,000 more men than are now in sight will be needed and desperate measures will be adopted to draft men into service behind self-interests.

FROM FARM TO FABULOUS FORTUNE

For the First time in His Life James J. Hill Tells His Own Story of His Life. Worked as Farm Hand, Store Clerk and Manual Laborer. How he Rewarded the Section Man who Wrapped the Wire around the Hose. Tells Canadian Boys the Northwest is the Place.

Like a page from fiction reads the story of James J. Hill's rapid rise from obscurity to opulence. "How to become a millionaire, or my progress from a Canadian farm to command of the greatest railroad combination in North America," would be a very fitting title for the entertaining personal reminiscences furnished by Mr. Hill. For the first time during his busy career, in which he met and mastered such keen intellects as J. Pierpont Morgan, John W. Gates, Jay Gould, Russell Sage and other satellites of the great world of finance and railroading, Mr. Hill has consented to make public some of the rules, as he calls them, by which he advanced up fame's ladder, but the acquisition of fabulous wealth is one thing and the practical use of those millions for the employment of hundreds of thousands of individuals is another. James J. Hill is one of the great captains of industry who has solved both problems. Having reared one of the most colossal industrial empires in modern history, covering an empire with transportation facilities, giving profitable employment to more than one hundred thousand men, involving combined capital exceeding \$500,000,000, he quite the exciting game long enough to tell his life story.

The heights to which James J. Hill's genius has carried him have not made him forget his Canadian nativity, nor dimmed his recollection of early battles with adversity around Rockwood, Ont. In consenting to mention the elements which he conceived had contributed most to his success, Mr. Hill said he was moved largely by the hope that his experience might be the source from which some of the young people of the Dominion could draw their inspirations to mount the ladder of life. The versatile mind that created the Northern Securities Company evidently still clings fondly to the memory of those days between 1838-58 when as a ragged boy the young Canadian was laboriously mounding the foundation upon which his great fortune was to be constructed.

Sitting in his gigantic office building, looking about upon a network of steel rails, over which the traffic from all parts of the world was streaming in obedience to his direction, the railroad king turned back the pages of his life history and dwelt with apparent satisfaction for an hour upon those days when he was so poor and so happy. He traced his way from the farm to the little old Quaker schoolhouse, the country store, across into the United States to more days of toil on the farm, and then to the unknown west, where he wended his way, without a cent, to woo dame fortune with such dazzling success.

The strong features of the railroad dictator softened as he reviewed those spirits of the past, he smiled in recollection of boyish pranks, and his great, piercing eyes were half closed as the entertaining story was concluded. James J. Hill's reverie was rudely disturbed by the roar and whirl of one of his great limited trains, from the Pacific slope, as it steamed out through the yards. He rose from his chair, his countenance again assumed that alert expression so characteristic of the man and the picture of the Canadian farm

boy had given place to the president of the Northern Securities Company and the most influential force in the affairs of western railroads of the day. Briefly, Mr. Hill asserts that conditions today present more opportunities for young Canadians to acquire millions than when he carved out his fortune, that, in his estimation, the western hemisphere is entering upon an era of prosperity, in comparison with which the big things of the industrial world during the past decade will be the merest pignions, and that no boy need feel that he is required to seek his fortune beyond the confines of this Dominion, since, in his opinion, Canada will be the centre of the industrial wave for some years to come.

"Give some rules which have governed me in my life work? I can't say that I have any rules. I attribute it all to work and a measure of good luck," and Mr. Hill smiled, as if he did not take the "good luck" feature seriously.

"Let me see; this thing of laying down a set of rules to govern one's career, or to run back over a lifetime of hard knocks, and say just what rule contributed to my good fortune is not easy for me. In the first place, I was born on a farm—a Canadian farm. That was in 1838. This is a good beginning, for it means a sound body as a rule. In other words, it starts a chap right. That's half of the battle; I might say it is everything, because a bad start means a big handicap in the race. But as far as rules go, I would say those that have helped me to succeed are:

"Work, hard work, intelligent work, and then more work.

"A sound body and a sound mind; I had both of these though I left school when fourteen and a half years old and never got time to see the inside of a school again. An education, however, is indispensable. I do not mean necessarily college training. An education comes frequently with contact with the world; studying conditions, life as you see it.

"Don't mortgage your future. Practically have an eye to securing the benefits of what you earn. Look ahead to the point where you are determined to get into business for yourself. If you are not worth your hire you cannot be hired, and if you can earn money for another you can earn for yourself.

"Be satisfied to start in a small way. Too many young men want to start to pile on before the foundation is finished, and what they accumulate they cannot retain. A slow beginning makes a permanent business.

"Be economical, but not penurious. This is not a distinction without a difference. It is the difference between the mind built on the broad gauge and the narrow. It is the difference between great things and small things; between boundless success that sheds a generous share of its prosperity on the whole community and a meagre competency, that distinguishes the miser from the man of affairs.

"Have confidence in your own future and conditions generally. Men prefer the optimist to the pessimist. The bright side of things is a view that helps a chap forward. Even if

the worst occurs, a person has more strength to meet it from having taken a complacent view of the situation. When a fellow has put forth his best efforts, been thoroughly alert, done the best he could he has no room for worry.

"The selection of a vocation is quite important. My experience is that those things are largely matters of chance. I don't think I ever expected as a young man to get into the railroad business. Having chosen a profession I do not think a young man is warranted in sticking to it if he feels that he is not adapted to it, or that he sees a better opportunity to acquire wealth in another direction. I was first a farmer, then a merchant's clerk, then a farmer, a clerk, a builder of steamboats, a constructor of railroads as a sub-contractor, and then stockholder and owner. So, again comes the question of confidence in one's ability to discern that which is best for him and to strive for that regardless of opposition. In other words, it is the confidence that enables the young man to take risks without which great things can never be accomplished.

"Perhaps you might accept these outlines as the rules which I have observed through life. The young man should not make the mistake to-day of imagining that conditions are not as favorable as at any time in the past century for the poor boy acquiring wealth. The world is in its infancy, especially the western world. Industrial development is just beginning. Agriculture, mining, contracting, shipping, railroading, land speculating, mercantile life and manufacturing offer every inducement for the ambitious youth today to become a man of millions. Money is so plentiful that a determined boy of worth can borrow all he needs. Bankers accept the element of prospects in lending money, as well as the ability to pay, and there is no more promising prospect of a monetary value than youth, grit and ambition, backed by western intelligence. Therefore, the way is, if anything, more easy; that

(Continued on Page Seven)

Bargains In The STAPLES DEPT.

To centre your interest on the price concession alone, in the Staples Department, leaves you conscious of but half the strength of this offer, its greater might lies in the character and value of the goods. See them, and then make your own estimate of the true value of them and you will buy, for they are wonderful value.

There's 5 pieces of 25 inch wide Prints in all the popular colored stripes; regular Revillon price 8c. Friday 6c.

5 pieces of 25 inch Prints in different colored polka dots on white ground; Revillon's regular 8c. Friday 6c.

2 pieces of fancy striped Wrapperettes, popular colors on cream ground; regular Revillon 35c. value. Friday 25c.

5 pieces 28 inch striped Flannel-ette; light and dark stripes; regular 7c. Friday 6c. yard.

REVILLON'S Department Store

THIS

is just an advance notice to the Men that there will be something of extraordinary interest to them in Friday's issue of this paper on this page.

It Will be a Winner Watch for it in Revillon's Ad.

Friday Next is, as Usual, Ladies' Bargain Day.

But the price cutting that has been done on these goods make it an impossibility to duplicate either in the goods or price.

2 pieces of 54 inch Tweeds, unprecedented value at \$1.00; Friday .65c.

Mundare

Offers greater industrial and investment opportunities than
any other town in Western Canada.

FOR BUSINESS MEN

Because---Mundare is located on the main line of the Canadian Northern Railway, 58 miles East
of Edmonton. Four passenger trains every day.

Because---the Government Road now being built into Mundare will make it the trading centre and
shipping point for the entire Lake Whitford and Beaver Lake Districts, besides the im-
mense country north of the Saskatchewan River.

Because---it is the natural distributing point for the interior towns of Pakan, Andrew, Whitford,
Shandro, Beaver Lake, Etc.

Because---for a number of years the country tributary to Mundare has been thickly settled with a
thrifty and prosperous class of people. You won't have to wait for trade--it's there now.

Because---there are openings in Mundare for EVERY LINE OF BUSINESS--But you must
act quick.

For Speculators

Because---Mundare is growing rapidly and advance in real estate values the world over, is based
solely on increase of population.

If you want to get in on Mundare you'll have to hurry.

BANDITS ASKS

ANOTHER TRIAL

Claim That There Were Irregular-
ties in Proceedings by Which
They Were Sent Down

Victoria, June 18. -- Before Mr. Jus-
tice Irving, A. D. MacIntyre, who ap-
peared for the train robbers at the
recent trial at Kamloops, has applied
for a new trial.

The grounds advanced were that the
crown counsel in addressing the jury
had made a comment on the fact that
Superintendent Hussey of the provin-
cial police, had not given certain evi-
dence.

The comment of counsel was there-
fore unfair.

Mr. MacIntyre also stated that when
the first trial proved abortive the pri-
soners were not rearraigned and asked
to plead.

This was another irregular proceed-
ing.

The judge overruled both these
pleadings.

It is probable that the appeal will
be taken to the full court.

SPORTING ITEMS

FROM RED DEER

Baseball Fest Planned For July 2nd
and a Whole Fortnight of
Cricket

(Special to the Bulletin)
Amongst other attractions of July 2
will be a baseball tournament at which
Calgary, Wetaskiwin, Edmonton and
Lacombe will probably test Red Deer's
provinces.

Moore and Forshee, Red Deer's im-
ported battery, have arrived, and have
had a couple of work outs. Forshee
shows up well and there is not much
doubt about his making good behind
the bat. "Dunny" is there with the
goods.

The baseball field has been torn up
by the C. P. R. and in future practising
will be done on the Alexandra Park
diamond. All interested in ball are re-
quested to turn out.

The baseball club are trying to ar-
range a game with Lacombe for next
week. Teas defeated Lacombe 10-1 on
Friday evening.

Something over a fortnight's cricket
tournament will be a Red Deer attrac-
tion beginning about the 2nd of July.
Calgary and Pine Lake are among the
teams expected. A couple of fine cups
are on exhibition in R. A. Jacobson's
window.

Del. Garland, who did such good
pitching for the intermediates early this
season, left last week for his home town
north of Edmonton.

A number of local sports took a
drive out to Snake Lake on Sunday.
They report everything very wet.

Abbey's Effer- vescent Salt

puts the whole system in the best possible condition to resist
the enervating effects of "spring fever."

It is the only tonic needed to purify and enrich the blood--
regulate bowels, liver and kidneys--sweeten the stomach--and
strengthen digestion. Physicians everywhere recommend it.

A teaspoonful in a glass of water every morning. 25c and 60c.

FROM FARM TO FABULOUS WEALTH

Continued from page 5.

is, the way to the top. The real struggle is at the bottom. There is where the ranks are crowded. The fight is very fierce there. When you begin to get away from the crowd it is easier. You may pass many commercial derelicts, failures and wrecks of men, along the way, but the great trouble is in getting started up. Everything seems to contribute to hold a man down until he starts, then everything turns to boost him up after he has secured a start. This is the way of the world.

"My father's farm was located four miles south of Rockwood, Ont., Canada. James Dunbar Hill, my father, was not very prosperous. The farm was not very fertile, and my early experience was that of a very little boy on a big farm. I recall that my father frequently remarked that he could trace our family tree back sixteen generations through Scotland and Ireland. To this I attribute my mental and physical vigor. I had to walk four miles to the Quaker Academy at Rockwood. The average boy today would think this a mighty hard way to get an education, and it was. One winter arrangement was made by which I remained at Rockwood. I paid part of my tuition by doing chores around the little old academy. I don't think I studied any harder than any other 14-year-old boy, but I had much work to do.

"Then the exigencies of my family required me to make a return for my living. That was in the spring of 1853, and I began to clerk in a general store at the crossroads. I continued this employment, occasionally varying it with a little work on the farm, until I was 19 years old. I was dissatisfied, and yet, when I look back to those days, it was very pleasant. Altogether, life is always pleasant in youth, little matter the condition. But I had concluded to go to the United States.

"I made up my mind that I would have a better chance in the Western States, which were then just beginning to attract new settlers. Perhaps I might have done just as well in Canada, but I did not think so. Others remained there and prospered. I have many relations today around Guelph. I had not saved sufficient money to make the trip west, so I went over to Syracuse, N.Y., and worked a few months on a farm. That was in the spring of 1853. It was July 4 of that year I started west. I can never forget that day, for it was a big day in my life and also a big day in the life of the American Republic—their Independence day.

"When I reached St. Paul, a week later, I practically had not a dollar to my name and knew not a single individual there. This was the outpost of civilization in the northwest then. I liked it, and I enjoyed particularly the rough, cordial welcome the westerners gave all newcomers.

"My progress was mighty slow for ten years. It consisted of some rough experience. I was without what is known as a "trade," and this was against me. I was forced to do manual labor. Still, I mingled with rough-and-ready people, and it sharpened my wits. That was my matriculation into the western college of life, and my education was rapid and thorough. When I was handling baggage as a railroad employee in those days, I cannot say that I ever expected to own a railroad. I did intend, however, not to work for another man all my life, though I believe I work harder today than I did then. That, at least, I had no cares, if my wages were small. With increased income came additional burdens. I became a shipbuilder in a small way. This was my introduction into the transportation world.

"My hours of work? Well, I try to work as much as I can, as I have a good many things to look after. Of course, I don't get up like I used to on the farm before daylight, though I see many glories to that effect. I rise at 7 o'clock. I can't sleep after that, and I get around to my office about 9 o'clock. Sometimes I get away by 5 o'clock and sometimes not until midnight. That just depends.

"But Canadian boys should make up their minds that they have as fine opportunities at home today for getting rich as anywhere in the world. I have some thirty Canadians here in my general offices, and young Canada is spreading out a good deal, but it is usually easier to acquire fortune in a new country than an old, and, in a sense, western Canada is a new country. That is the centre of great enterprises at present. Great fortunes are to be made there in the next decade. My final advice to the young men of the country of my nativity is to be alert, keep abreast of the times, and grasp opportunity when he passes, holding on to him firmly. Prepare yourself to recognize him when you see him. That is quite important. Learn this lesson well.

Mr. Hill's handsome residence, over-

looking the Mississippi River, is one of the interesting sights of St. Paul. The busy man has found time to fill it with a rare collection of paintings, relics of his travels and the choicest productions of the artists of many countries. The president of the Great Northern railroad is said to have fear of cyclones whose devastating work he has witnessed more than once in the west. He has constructed his residence therefore somewhat after the fashion of some of the great bridges of his roads—a ground work of steel, anchored to great beds of cement around which his splendid home is built.

President Hill has an eye single alight at the same time advanced his own ways to advancing merit, even though interests. It is something like the rule that Carnegie applied in business. It is related that he more than once observed the enormous expense of the different roads for the long lines of rubber hose used at nearly every station for filling tanks of cars, sprinkling lawns, and kindred work. He bought an improved quality of hose, but the dragging of the line over the platform surface usually wore it out in a short time. Away out on a mountain division, at a small station, he observed a day laborer filling the tank of a dining car with a piece of hose, around which was wrapped an old piece of telegraph wire, coil-like. He asked the man what that was for.

"To allow me to drag it around without destroying it," was the reply. The mystery was solved and the invention saved the company thousands of dollars annually. The laborer is now one of the chief mechanical men on the Great Northern.

The president of the big railroad is too alert to let anything escape him. Examining the operating expense account, he noted the increased consumption of coal on engines. He figured down the average quantity of coal consumed by each engine and posted a bulletin offering each engine crew half of the value of all coal they could save monthly under this established average. Each engine had its separate account. The first year the company divided with the men some \$30,000. Now it is an established rule, each side profiting.

Not long ago, some five years, in a wreck, a conductor who had been a medical student, saved the lives of two passengers who were bleeding to death, by the simple process of tying a handkerchief around their lacerated arms, making a windlass of a stick and twisting it around until the hemorrhage ceased. The president rewarded the man, and at once required the conductors and the engineers of the entire system to take a course in "first aid to the wounded," which the company instituted. Now when a passenger gets hurt on his lines Mr. Hill knows he has always present several men ready to render immediate aid until the surgeons can arrive. The company spent \$50,000 establishing this system. For every life thus saved the company reaps a reward in avoiding damage suits, to say nothing of preserving human life.

President Hill is always intensely interested in the development of the country through which his lines pass. He figures that he may carry the freight of any manufacturing industry on his line, therefore he aids in every practical way these industries. He has a "promotion" department which receives all communications addressed to him on the subject of aid, saw mills, factories, etc. This department supplies literature of a highly interesting character of about notices, touching the resources of the northwest.

President James J. Hill is a powerfully-built man. His enormous head is set off by massive shoulders. He probably weighs 210 pounds. His eyes, of most piercing brightness, are abnormally large, and are shaded by shaggy brows. Sixty-five years of age, his style of wearing his beard and hair give him rather the appearance of greater age. He speaks with great deliberation, his mental restlessness being apparent in the quick movement of his head from side to side during conversation.

G. C. PORTER.

PROBABLE CHANGE IN INSURANCE LAWS

Ottawa, June 15.—When the committee on banking and commerce met today to consider an act to incorporate the Stirling Life Assurance Co., Hon. W. S. Fielding made an announcement affecting insurance bills.

He said that owing to the country which is now being made into insurance, he intended asking parliament to make whatever bills were passed this session subject to any general legislation that may be found necessary as a result of the investigation.

"I think it better to take this course," said Mr. Fielding, "than to prevent bills going through. I will make a statement in parliament to this effect. It will not do for these companies which we are chartering this session to come here and say they have certain rights which will not make them come under whatever general legislation may be found necessary."

NOTICE TO HOUSEHOLDERS

Under the Amendments to the City Charter made at the last session of the Provincial Legislature the exercise of the franchise in civic elections may be secured by any household on the following conditions, viz.:

"Upon satisfying the Assessor on or before the first day of July in the 'then current year,' that for a period of at least three months prior to the 1st day of July he has bona fide resided in the City and during the said period has been and still is a bona fide occupant of premises therein as tenant, lodger, employee or servant entitled to the possession of the premises, and upon producing the receipt of the Secretary-Treasurer showing the payment of \$5.00 as 'Householder's Tax' shall be entered by the Assessor upon a list to be called the 'Householder's Tax List' and shall thereupon be exempt from the payment of a poll tax for the then current year."

Householders failing to comply with the above conditions cannot exercise the franchise in municipal elections for the ensuing year, as their names will not appear in the next revised Voters List which cannot be altered after confirmation.

The final rehearsal for Miss Webster's concert will be held in the Thistle Rink to-night. Male chorus at 8 o'clock; full chorus at 8.30.

The farewell concert of Miss Ethel Webster at the rink to-morrow night commences sharp at 9 o'clock. Tickets at Archibald's drug store.

The employees of the Bulletin Co. presented Mr. John Howey, the editor, with a handsome weathered oak sectional bookcase on the occasion of his marriage today.

The C. P. R. definitely decided to build a million dollar steel bridge, at Lethbridge, a mile long, and three hundred feet high. Work will begin early.

A county union of the Society of Equity was organized in High River last week, with R. W. Wallace, Clearholm, president, and J. J. Strang, Clearholm, secretary. The Alberta Farmers Association, already existing there, was absorbed by the Equity society.

All the expressmessengers running between Calgary and Vancouver are now armed with shotguns in addition to the usual revolver. In view of the fact that Bill Miner is asking another trial, it might not be unwise for the messengers to get cannon.

Ben Baker has removed his shaving parlor to the new building two doors west of the Bank of Hamilton. He will open up in his new premises on Saturday. He has installed baths and a shoe shine parlor, and all the accoutrements of an up-to-date tonorial establishment.

Mr. W. H. Henderson, B.A., of Toronto University, who is spending the summer at Lamont as student missionary for the Knox College Student Missionary Society, spent yesterday in the city visiting his brother, of the Department of Agriculture.

Bob Tagler has bought two lots, corner Main street and Railway avenue, Mundare, and will at once commence the construction of a three storey hotel. The plans call for forty rooms with all modern conveniences, and it will be one of the best equipped hotels in the west.

The closing recitals for the season 1935-36 of Alberta College music and elocution departments will be held on Tuesday, June 16th, in the College assembly hall, and on Thursday, June 18th, in McDougall church, when the prizes will be distributed to successful students. No invitations will be issued but the College offers a cordial invitation to all who may be interested in the work of the College.

D'AMOUR SENT UP

Young D'Amour, the mail clerk, on the C. & E., charged with robbing the mail, was committed to stand trial at the next sittings of Supreme Court in Edmonton, by Magistrate Wadsworth yesterday afternoon. The only evidence taken yesterday was that of Turner, a mail clerk, and that of Miss Grant, of the Edmonton post office.

HYMENAL

John Howey, editor of the Bulletin and Miss Mabel Prescilla Tuttle, sister of Rev. A. S. Tuttle, were married at the home of the bride's brother on Sutherland street at noon today. They will spend their honeymoon at Banff, returning to the city in about two weeks. Before her departure, the bride was presented with a beautiful piece of silverware by her fellow-employees in the provincial government offices.

SOCIAL & PERSONAL

Hon. C. W. Cross, Mrs. Cross and family returned last evening from their trip to the coast.

Mrs. Albert C. Wittmann is entertaining at cards this evening for the Misses Wittmann.

Mrs. A. Burnett, of Nanton, is on a visit to her daughters at Alberta College.

Mrs. R. G. Bellington left yesterday for an extended trip to Toronto and other eastern cities.

G. T. Rymal, formerly of the Farmers' Advocate, now general manager for the Northwest of the Empire Accident Insurance Co., was in the city yesterday.

C. N. R. FIREMAN KILLED. Port Arthur, June 18.—J. W. Roberts, a fireman on the C.N.R., was seriously hurt at Stanley gravel pit this morning. There are no hopes of his recovery. He had finished uncoupling cars from the engine and went back to catch the engine at the switch. He attempted to step on the engine board but missed his footing and fell under the engine, which passed over his body, severing his right leg at the hip and inflicting other serious injuries. He has a wife and two children.

Winnipeg's Great Exhibition

Western Canada's Great Industrial Fair and Exhibition, to be held in Winnipeg, July 23-28 next, promises to be not only the greatest in the Exhibition Association's history, but to rival in interest exhibits and features of instructive entertainment the great Toronto Industrial Fair.

The Board of Management is using every effort to make the coming Exhibition one not only in harmony with the development of Western Canada, but also the great event of the year in the industrial and social life of the people.

The prize list has been increased in the number of classes and in the amount of prizes offered. The musical features will be the best ever presented in Western Canada, and the attractions of a character sensational in interest and educational in effect.

Prizes of \$20, 100, \$75 and \$50 are offered for 25 bushels Red Fyfe Wheat and, besides the added and increased prizes in the horse classes, several of the great Horse Societies of Great Britain, are offering medals in the Clydesdale class and Hackney class. The prizes in the increased Harnessed Horse Department are also largely added to, as well as in the Hunters and High-Jumping Class.

In Shorthorns, Herefords, Holsteins, Ayrshires and Red Polled Cattle classes the prize list has been revised and greatly increased.

In the Swine Classes the prize list has been increased as well as all the Poultry Classes.

Special efforts have been made both through increased accommodation on the grounds and also in the prize list in the Dairy Products Department to make it a feature of this year's Exhibition.

R. J. is in Luck

Speaking of the construction of the Nicola and Spence's Bridge railway and the Similkameen country which it is opening up, the Kamloops Inland Sentinel says:

Aspen Grove is one of the principal camps which will progress with the impetus given to mining by the railway. The mineral area is about nine miles in length, and is located on the summit of the divide between the Nicola and Similkameen. Seven hundred and eighty claims are located. Native copper has been shown in Vancouver from the Golden Sovereign group, which was lately disposed of to Mr. R. P. Inglis, of Montreal, by Mr. J. McConnell. The shaft on this property is down thirty feet, and the showing of native copper is very good. The purchaser of the Golden Sovereign did not think \$110,000 too good to pay, and mining men say this will be counted a small figure when operations reveal the extent and richness of the ore. This camp should furnish a large tonnage, and development will mean a new town in the interior. Under conditions up to the present it has been impossible to successfully open up good mining claims. From Aspen Grove, for instance, it is 14 miles by a wagon road over the hills to Coulee, which is forty miles to Spence's Bridge. Transportation by wagon that distance would leave little profit, even though the ore were very valuable. With a railway, not only will the cost be reduced, but the trip will occupy but a short time.

WINNIEP EGRAIN PRICES

Winnipeg, June 18.—No. 1 northern \$3.13; No. 2 2.80; No. 3 2.77. No. 2 white oats \$2.13. No. 3 barley 43c. No. 1 flax \$1.

LINER ASHORE

Fire Island, N.Y., June 18.—With mighty seas battering her hull, the Italian steamer Vincenzo Bonanno lies abandoned on the sands between Point of Woods lighthouse and this place, a deserted wreck and as wind and sea are both rising it is feared the liner will never again be floated. Her crew of thirty-six were saved.

WINNIEP EGRAIN PRICES
